

BARONS EDEN RELEASE ALL-NEW TREATMENT COLLECTION

Barons Eden, the award-winning Hotel and Spa Group, have released a new selection of blissful treatments, focused around three all-encompassing pillars; Radiance, Revive and Renewal. Each designed to achieve the ultimate oasis of relaxation, guests can look forward to results-drive facials, and deeply relaxing massages.

Biotec

One of the most innovative additions to the treatment collection, is the introduction of Elemis' Biotec 2.0 machine, designed to bridge the gap between hands-on facials and non-invasive cosmetic procedures. Perfectly partnered with the Pro-Glow Facial range, treatments will allow guests to receive advanced cold therapies, including New Sub-zero CryO2 Therapy, Advanced light therapy, and many more, all with clinically proven results. *Our favourite?* The Pro-Glow Genius Biotec Facial. Aimed at tackling deep-set wrinkles and facial texture, this advanced treatment utilises a triple-level approach to skin hydration, leaving guests with a firmer and more sculpted appearance.

The combination of the all-new treatment collection and Elemis' Biotec technology, will allow guests to access cutting-edge treatments and instant results.
